

ChatHealthy.ai

UAT Report -- v0.1.3 Sprint 1

Date: 2026-03-30 | Builds: 180-220 (40 builds) | Tester: Boss (Skip Snow)
Pass: 13 | Deferred: 2 | Fail: 0 | SIT: 1 | Bugs Fixed: 4 | New Features: 4

Copyright 2026 Skip Snow. All rights reserved.

#	Feature	Done	Bugs	New	Notes
1	Provider Search (DE + MS + VA, vector + regex)	Y			
2	Specialty Identification (NUCC + AI expansion)	DEF			
3	Clinical Trials Search (+ travel time)	Y	1		PE: international travel; ARCH GAP: mapping should be its own service
4	About ChatHealthy / Skip Snow	Y	2		LG: field name mismatch; PE->LG: LinkedIn URL hack (3 prompt attempts failed, regex fix)
5	Safety Filter (dual-trigger, IP lock, audit)	Y		1	FT: emergency keyword expansion (F-09)
6	Lead Capture (follow-up offer)	Y			FT REQ: repeat contact should remind user of existing record, verify info, append conversa
7	Consent Framework (two-stream)	Y			FT REQ: consent tier sticky across session ? if user chose verbatim or de-identified, subs
8	Provider Detail (NPI lookup + external links)	Y			
9	URL Guardian (validate + defang broken links)	DEF			
10	Chat UX (timer, stop, markdown, emergency)	Y			
11	Blob Storage Infrastructure	SIT			Infrastructure only ? no possible end user test. SIT coverage only.
12	Unanswerable Question Handling (3-path)	Y			
13	Markdown Table Rendering (GFM tables in chat)	Y			FT: remark-gfm tables; ARCH GAP: need GUI/UX manager service
14	UAT Report (clean start, build number, environment b	Y	1	1	UX: stale static bundles; FT: clean UAT report
15	Session history preserved through safety unlock	Y		1	FT: session history through unlock. UX pass, DB verification tomorrow.
16	Long-running request timeout modal (30s threshold)	Y		1	FT: 30s timeout modal + abort

Bugs by Classification

PE: International travel distance (Build 210), LinkedIn URL (Builds 214-216)
LG: AboutService field mismatch (Build 213), LinkedIn URL hack (Build 217)
IF: Stale static bundles (Build 208-209), .env.local port mismatch
UX: QA report caching (Build 208)

Architecture Gaps

- #3: Mapping should be its own service
- #13: Need GUI/UX manager service
